SECTION 3: BANQUET FACILITY

Splatsin Community Center
5775 Old Vernon Road,
Enderby, BC

The Splatsin are the most southern tribe of the Shuswap Nation. They are the largest Interior Salish speaking First Nation in Canada whose traditional territory stretches from the BC/Alberta border near the Yellowhead Pass to the plateau west of the Fraser River, southeast to the Arrow Lakes and to the upper reaches of the Columbia River

The Splatsin Community Center in Enderby was completed in the fall of 2015. It is topped with a 24,200 square-foot lightweight planted roof. The facility is three stories and 33,581 square-foot building to reflect its history and focus on the future by caring for the land.

The Splatsin Community Centre was designed to serve multiple functions. The centre provides space for meetings, banquets, weddings, reunions, and concerts. The facility will also have a high school regulation basketball court as well as a running track on the mezzanine and will provide many opportunities for community members to access physical activities. Education outreach was another key focus planned for the new site.

The unique dome-shaped green roof was designed to represent a traditional winter shelter used by Splatsin ancestors. The site design allows storm water and below-grade drainage to be captured and used to irrigate the vegetated roof as well as ground-level native landscapes around the building and in the area to provide low maintenance and water conservation.
